

## **Licensed Practical Nurses**

### **Missouri Veterans Home - Warrensburg**

MVH-Warrensburg is seeking applicants for LPNs to work evening and night shifts, part-time and full-time.

An employee in this class performs a variety of difficult and responsible practical nursing work, on wards or units for the acutely ill, where the most intensive care of patients is required. Work may include "ward charge" assignments with supervisory responsibilities over a number of subordinates, in units or wards requiring close supervision and/or involving special nursing skills. Work of this class may be distinguished from Licensed Practical Nurse II by the delegation of supervisory responsibility in the more complex nursing care areas and/or by the performance of difficult and varied nursing procedures on units for the acutely ill. Supervision is provided by a registered professional nurse who reviews work through reports, ward inspections, and observations; however, the employee is expected to perform the more difficult and complex duties without detailed instructions.
